

# ***How do businesses solve problems?***

## **Course correction**

- Use new knowledge derived from measurement to refine the business problem and possible solutions

## **Measurement**

- Evaluate solution performance on business metrics (sales, costs)
- Assess performance against hypothesis
- Identify metrics and areas where performance was above, at par and below expectations

## **Planning**

- Define the business problem
- Build hypotheses
- Use prior knowledge to develop possible solutions
- Prioritize and choose best solution

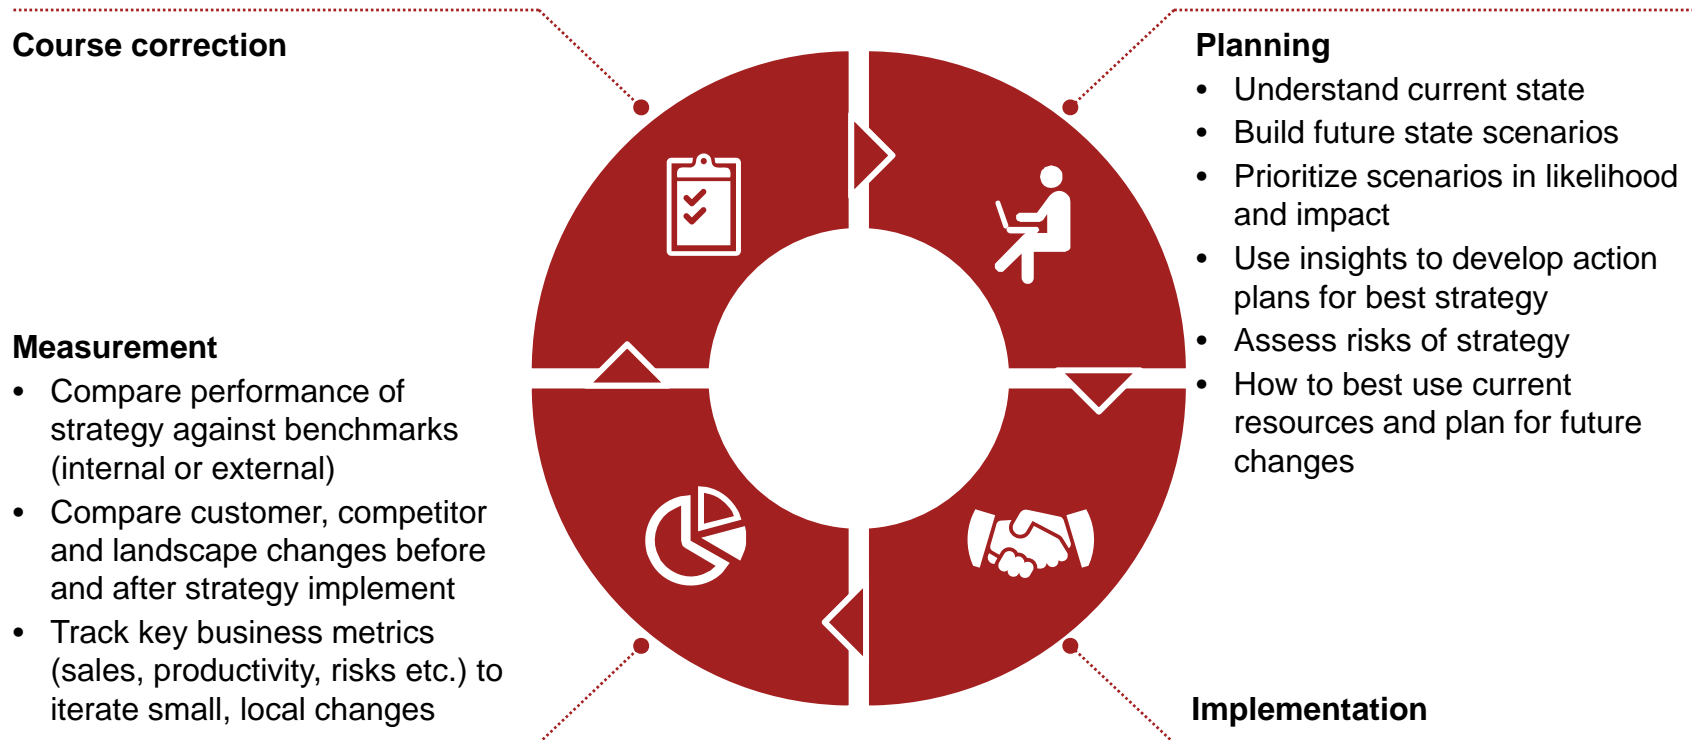

## **Implementation**

- Identify and develop assets to implement best solution
- Build systems to track performance

## ***Where does analytics fit in?***

*Typically businesses rely on data analytics to answer business questions during planning and measurement phases*

---

## ***How does analytics impact value drivers at the planning and measurement stages of solving a business problem?***

<b>Value drivers</b>	<b>Planning stage</b>	<b>Measurement stage</b>
<b>Revenue</b>	<ul style="list-style-type: none"><li>• Find new market segment for products to gain new customers</li><li>• Identify customer needs to make more sales per customer</li><li>• Develop pricing strategies to acquire market share</li><li>• Assess impact of expected competitor actions</li></ul>	<ul style="list-style-type: none"><li>• Evaluate success in customer buying behavior change after strategy</li><li>• Evaluate competitive position of product in the market</li><li>• Track revenues, market share changes</li></ul>
<b>Cost</b>	<ul style="list-style-type: none"><li>• Identify productivity improvement areas</li><li>• Build optimal resource deployment to implement strategy</li><li>• Cost-benefit ROI analysis of planned strategy</li></ul>	<ul style="list-style-type: none"><li>• Calculate return on investment made in implementing productivity changes</li><li>• Track implementation of changes within organization</li></ul>
<b>Compliance</b>	<ul style="list-style-type: none"><li>• Assess compliance risk and costs for planned strategy</li></ul>	<ul style="list-style-type: none"><li>• Continually check for new compliance issues and market changes</li></ul>
